Professional Summary

A creative self-taught front-end web developer with two years of coding experience and a passion for responsive website design. I am a team player, a quick learner, flexible, and ready to work with a team of designers and developers.

Additional Skills

- JavaScript, React, HTML, CSS, Responsive UI Design
- Git, npm, Visual Studio, Chrome Developer Tools

Projects

Portfolio: [GitHub](#) | [Demo](#)
- HTML, CSS and JavaScript
- Built a responsive portfolio website that ties together my different projects in a single cohesive design to help demonstrate my skills as a developer.

Random Quote Machine: [GitHub](#) | [Demo](#)
- Javascript, React, HTML, CSS, and API
- Fetches a new random quote with the click of a button by leveraging data from an external API.

Markdown Preview: [GitHub](#) | [Demo](#)
- JavaScript, React, HTML, and CSS
- Built a mobile first responsive UI for converting and viewing a live preview of markdown text to a user-friendly readable format.

Todo List: [GitHub](#) | [Demo](#)
- React, HTML, and CSS
- Users can add, edit, delete and mark todo list items as complete.

Travel Form: [GitHub](#) | [Demo](#)
- HTML, CSS
- Created a responsive UI survey form to collect information from travelers and customers for a travel agency.
